ENGAGEMENTS

Our consultants have implemented DevOps Transformations at these enterprises.

EQUIFAX

Automation helped the team to improve from one deployment a month to **800 deployments in 6 months** across all the environments.

ERIE INSURANCE

End-to-end automation reduced the turn-around time for build and deployment from **16 hours to 45 minutes.**

CISCO

Action Orchestrator, a dynamic **multi-domain** workflow engine, offers users standardized interfaces to simplify the **workflow automation.**

STAPLES

Through SUNSET infrastructure, the migration has eliminated the need for **4 system engineers** causing a significant drop in the overall maintenance overhead.
